Name: _____

Elephants

Read the passage 3 times and then answer the questions

Elephants are the largest type of land animal. They live in Africa and Asia and can be as heavy as a truck.

Elephants have a long trunk which they use to gather food, drink water and bathe. To cool down, they flap their large ears.

Elephants love to eat leaves, grass and bark. They are really big so they need to eat a lot of food. They sometimes spend up to 16 hours a day searching for food.

Questions:

1. How heavy are elephants? _____

2. What do elephants use their long trunk for? _____

3. Where do elephants live?

4. What do they do with their ears to help them cool down? _____

5. Why do you think elephants spend so much time searching for food?

Name: _____ Date: _____

Name: _____

Zebras

Read the passage 3 times and then answer the questions.

Zebras are animals that have black and white stripes. Their stripes help to hide them and keep them safe from other animals. No two zebras have the same stripes – they are all different.

Zebras move quickly and can run faster than lions! If they are being chased by another animal, they run from side to side. Zebras also sleep standing up and they mostly eat grass.

A baby zebra is called a foal and it can run within 1 hour of being born.

Questions:

1. How does a zebra's stripes help them? _____

2. Who can run faster, a zebra or a lion? _____
3. How do zebras sleep?

4. What can baby zebras do within 1 hour of being born? _____

5. What other animal do you think zebras are most similar to? Why?
